

Custom Designed Grain and Bulk Material Handling Products

STRUCTURAL STAND

STRUCTURAL STAND

All systems can be custom designed to fit the requirements of your specific facility.

DESIGNED AND BUILT TO MATCH ANY BRAND OF HOPPER BOTTOM BIN

Structural stands can be easily transported to a construction site and due to it's modular design, can be field assembled using a minimal amount of labor and time.

Outstanding Features:

- ♦ Multiple legged and tiered stand available for string or cluster of bins
- ♦ Bolt-together design allows for ease of delivery and installation
- ♦ Special clearance, width or length can be customized to fit site application
- ♦ Seismic design and construction available
- ♦ Stand can be designed to accommodate load cells for weighing bin contents
- ♦ Auto CAD drawings of customized structural stand
- ♦ Standard colors include gray, white or black (color match and galvanizing also available)
- ♦ Optional parts include mezzanines, work platforms, ladders, triangular rest platforms and stairs
- ♦ Delivery service available for transporting structural stand to site

Helping you succeed in a competitive market!
